

# **Solving Muder Mysteries with Distributed Tracing**

Hosting Marp slide deck on the web

<https://github.com/yhatt/marp-cli-example>

Marp

```
def test_something(self, int):  
    return "asdasd"
```

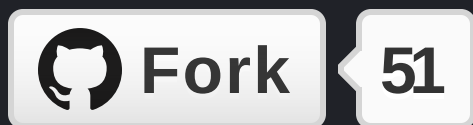

```
public class TestingObject {  
  
    public String testThisNewMethod() {  
        return "Something!";  
    }  
  
}
```

Marp CLI + GitHub Pages | Netlify | ZEIT Now

👉 The easiest way to host  
your Marp deck on the web

# GitHub Pages

Ready to write &  
host your deck!

# Netlify

Ready to write &  
host your deck!

Deploy to netlify

# ZEIT Now

Ready to write &  
host your deck!

Deploy
